Forecast for Saturday 14 Aug 2021

Weather: A cloudy start, particularly on western facing slopes where there will be poor visibility and some outbreaks of rain and drizzle through the morning. In the afternoon some bright spells will develop, mostly in the east, though overnight cloud cover will increase again with further drizzle possible.

Chance of cloud free mountain/hill tops above 600m: Less than 10% in the west and 60% in the east first thing, becoming 60% by mid-afternoon and then less than 10% overnight.

Visibility: Poor throughout the morning in the west with cloud bases around 500m and generally good in the east with patchy cloud with bases around 700m. Improving in the afternoon across the region to be good with scattered cloud occasionally covering hill tops with bases around 700m. Overnight becoming poor again as cloud with bases around 400m covers the whole region with outbreaks of drizzle at times.
